

Professional Internship (PR-020)

(ERIALAPRAKTIKA)

(Практика по специальности)

SUBJECT DESCRIPTION

Credits (ECTS)	15.00 ECTS
Assessment	pass/fail
Aim of the subject and short description	
The objective of the professional internship is to enable students to consolidate and deepen the knowledge and skills acquired in their academic studies in a real work environment, become familiar with activities related to organizing and managing professional work in the Internship organization, and develop professional competencies by completing tasks assigned by the Internship organization's supervisor.	
Learning outcomes:	
Student: <ol style="list-style-type: none">1. describes the organization's strategies, regulatory documents, work procedures, and processes related to the professional field;2. analyzes the functioning of the organization's professional field based on theoretical knowledge acquired in academic courses and experiences gained during the internship;3. applies the knowledge and skills acquired in academic courses to solve practical professional tasks in the workplace;4. analyzes their own performance in professional tasks and identifies their future professional development needs.
