Computer software monitoring (SE-020)
(TARKVARASÜSTEEMIDE MONITOORIMINE)

SUBJECT DESCRIPTION

Credits (ECTS)	2.00 ECTS
Assessment	pass/fail
Aim of the subject and short description	

This course focuses on monitoring of software systems, gives an overview of monitoring systems and introduces analytical tools used in system functioning. Students learn to monitor parameters of a working system, detect error situations, analyse them and react to changing performance requirements.

Learning outcomes:

Student:

1. Analyses the parameters and error situations of the working system
2. Improves software systems in accordance with changing performance requirements
